

Shoo Shoe

Made in locally sourced solid soft maple with a dark stain and tung oil finish, this storage unit was designed to hold shoes and boots, plus audio visual equipment. As per the long life loose fit credo of environmental design, adjustable shelves enable the unit to accommodate various storage and/or display needs, both now and in the future. The ends and dividers interlock with the long top and bottom in an unusual way, adding strength and visual interest to the piece.
